Built for Biotech Growth

Why BioFinance Essentials

For over 15 years, we've specialized in supporting biotech and life-science startups at every development stage. Our team understands unique challenges, from complex grant accounting and investor reporting to regulatory compliance and rapid scaling.

We serve as your external finance department, providing the expertise and infrastructure typically found only in larger organizations. Our fully digital processes ensure efficiency and accuracy, while our industry knowledge means we understand your priorities.

Germany-Based Expertise

We combine operational finance expertise with deep understanding of the German biotech ecosystem, regulatory environment, and investor landscape, ensuring compliance with evolving requirements.

Scalable & Reliable

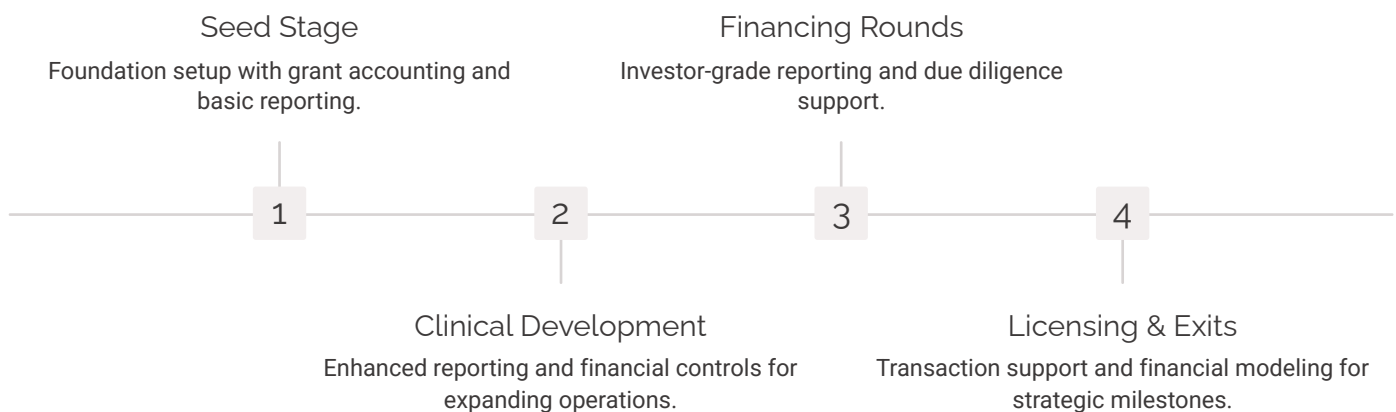

Our modular approach grows with you. Start with essentials and expand services as needed, from daily bookkeeping to strategic CFO guidance, aligned with investor and governance expectations.

Collaborative Network

For activities requiring certified tax advisors, we work seamlessly with associated partners to ensure full compliance, service continuity, and quality standards.

What's beyond Essentials?

We support you in all life cycle stages of your endeavor.
